

WANTED: Volunteers to Measure Precipitation

"Because every drop counts"

The Community Collaborative Rain, Hail and Snow Network is a group of grassroots volunteer backyard weather observers of all ages and backgrounds working together to measure and map precipitation in their local communities. By using low-cost measurement tools, stressing training and education, and utilizing an interactive website, our aim is to provide the highest quality data for natural resource, education and research applications.

The only requirements to join are an enthusiasm for watching and reporting weather conditions and a desire to learn more about how weather can effect and impact our lives.

**NEXT
TRAINING
SESSION:**

December 14

6:00 PM

Mount Washington Weather Discovery Center

2779 Main Street, North Conway, NH
